Our fleet consists of 13 concrete trucks, tippers of various sizes, a crane truck, two bulk cement tankers and two cement boom pumps.

Plant Locations:

Griffith	Hillston
Leeton	Coleambally
Narrandera	Cootamundra
Hay	

MILBRAE CONCRETE OUR CAPABILITIES

Pre-cast Panels

Whether your construction project is a factory, commercial or residential site, even a highrise, by using Milbrae Concrete pre-cast panels you can expect a high-quality, consistent result. Because our panels are manufactured in a controlled environment, any shape or block can be accommodated, making this an excellent option that can save you time and money without compromising on the final result.

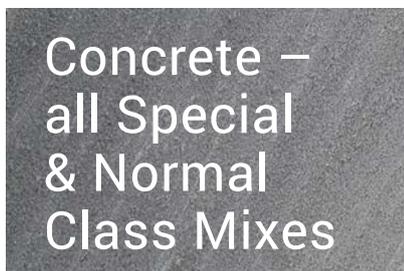

Concrete Reinforcement & Bar Processing

Milbrae Concrete stocks a huge range of steel reinforcement products and other concrete accessories. In addition, we are able to deliver all of your reinforcing needs direct to your site with our crane truck. We also have courtesy trailers available for customers to borrow.

Concrete Pumping

We have available both a 28 and 32 metre concrete pump and can also provide line and boom pumping services.

Milbrae Concrete can provide concrete mix designs for all your needs, batched in accordance with AS1379 using fine and coarse aggregates meeting AS2758.1. Milbrae also has a B80 mix design registered with RMS. Mix designs, current testing certificates and recent shrinkage reports are available. Milbrae Concrete uses AP Portland Cement, SL and can provide blends for specific requirements.

Mobile Batching

Milbrae Concrete's mobile batch plant can be commissioned on-site in less than two hours and has a capacity to deliver 60 cubic metres per hour.

WE'RE YOUR ONE-STOP CONCRETE SHOP

Beyond ready-mix, our expertise incorporates concrete pumping, reinforcing, concrete panel construction and decorative concrete, and smaller amounts of quarry products. Our team of experts are well-connected when it comes to concrete – they're also knowledgeable and super helpful. That's why our customers wouldn't go anywhere else for concrete.
