Foreword

Milbrae Quarries Pty Ltd is a privately owned organisation with over thirty years experience in the quarry industry. PA Woods Pty Ltd was established by Peter Woods in 1969. Peter has now retired, and his two sons Chris Woods and Brett Woods manage operations.

The business has grown substantially over the past 49 years and includes Milbrae Quarries, Milbrae Concrete, Kalrag Farming and four other non-trading investment entities. The businesses are branded together as Milbrae Business Group.

Anchored in the Riverina, New South Wales, we have a network of remote sites that enable us to quickly mobilise production teams to service projects throughout the

Eastern States.

Our responsive approach to customer service is backed by a skilled workforce and an extensive suite of plant and equipment. Our maintenance teams are on-call to ensure time lost to mechanical breakdowns is minimised.

Customers choose Milbrae Quarries because of our reputation built on our commitment to meet customer project specifications and to deliver your project on-time and on-budget – just as we said we would.

Quarry Products

Our high production quarries at Rankin Springs, Walleroobie, Warburn and Cootamundra are capable of producing over 450,000 tonne of various quarried products. This combined with a network of auxiliary sites, enables us to produce a range of products to meet customer demand.

We produce concrete aggregates, asphalt and sealing aggregates, crushed rock, specified and non-specified road base, railway ballast and gabion rock, as well as bulk fill.

- ❑ 14/20mm Roadbase
- ❑ DGB 20 Roadbase
- ❑ 5/7/10/14/20mm Aggregate
- ❑ 5 – 7 Mix Precoat
- ❑ 5/7/10/14mm Precoat
- ❑ Mortar Sand
- ❑ Screened Pit Sand
- ❑ Washed River Sand
- ❑ Crusher Dust
- ❑ Spalls
- ❑ Ballast

Supplying a range of aggregate sizes meeting Government and Industry specifications

Mobile Crushing Services

We have six mobile crushing and screening units available to service commercial and industrial sites, quarries, and infrastructure. Producing clean spec product from rock on-site provides significant project management advantages through savings on transportation and disposal fees, as well as reducing time and operational constraints.

Our experienced teams are equipped to provide a full range of services including drilling, blasting, mechanical winning, crushing and screening.

Aircraft Services

Milbrae Concrete supplies concrete batching to our contract locations. The mobile batch plant can be commissioned on-site in less than two hours and has a capacity to deliver 60 cubic metres per hour.

Social and Environmental Programs

Sponsorship and donations program has provided in excess of \$350,000 over the past five years. There has been an additional in-kind support of \$100,000. This extends to community groups for social, educational and sporting opportunities.

Milbrae's aim is to provide support to the smaller communities in which we work.

We have a renewable energy pilot program at our primary work site, and the Colinroobie property is a reserve for the Glossy Black Cockatoo.

Transport Services

Our extensive transport fleet supports our mobile crushing and quarry services, ensuring the availability of product when and where you need it. The vehicles can also be deployed to meet independent contracting needs for a range of industrial and commercial projects.

- ☐ Three Drake floats with capacity ranging from 30 to 110 tonnes
- ☐ 20 Kenworth truck and trailer combinations
- ☐ Truck and dogs with capacity from 25 to 45 tonnes
- ☐ Road Trains
- ☐ B-Double stags
- ☐ B-Double side tippers
- ☐ B-Double powder tanker
- ☐ Quad and Tri axle floats
- ☐ 4x8 Float and Dolly

Project Showcase

Hera Resources (Nymagee Mine)

- ☐ Since 2016
- ☐ Crush minus 14mm Orr
- ☐ Annual production requirements approximately 300,00 tonne (450,000 tonne crushed 2018/19)
- ☐ Minimum 20,000 tonne per month requirement
- ☐ Single 12-hour shift arrangement

Minto Glen Pastoral (Cristal Mining)

- ☐ Jan 2019 – May 2019
- ☐ Winning and Crushing 40mm roadbase
- ☐ 225,000 tonnes
- ☐ Minimum 2,000 tonne per day target rate
- ☐ Daily particle size distribution testing

Carrathool Shire Council

- ☐ Since 2012
- ☐ Winning, drill and blast, crushing and stockpiling of gravel from various council pits
- ☐ 20mm and 40mm roadbase to RMS specification 3051
- ☐ Annual average of 150,000 tonne

John Holland Rail Pty Ltd

- ☐ Upgrade Country Regional Rail Network
- ☐ Supply, haulage and loading of Ballast
- ☐ Up to 50,000 tonnes per annum

Xstrata – Mt Isa Mine

- ☐ 2009–2015
- ☐ Supply, operate, maintain and manage mobile crushing plants at Mt Isa Mine
- ☐ 24/7 continuous operation
- ☐ Average production 240ktpm
- ☐ Spec 14mm – tested under AS1141

Blackall Tambo Regional Council

- ☐ Reconstruction of the 2010/11 flood affected State and Local Government road infrastructure
- ☐ Winning, crushing, blending, screening and stockpiling of gravel product
- ☐ 497,000 m³
- ☐ Mobile plant moving throughout the Shire

Department Environment, Land, Water and Planning

- ☐ Jan 2018 – May 2018
- ☐ Production of crushed rock at Cone Hill Quarry, Latrobe District
- ☐ Drilling, blasting, crushing and stockpiling
- ☐ 40,000 m³ of 40mm minus crushed rock
- ☐ Minimum 1,500 m³ per week target rate

Forestry Corporation, Snowy Region Bombala

- ☐ Jan 2019 – April 2019
- ☐ Drilling, blasting, crushing, screening and sizing of rock for production of pavement material
- ☐ Drill & Blast 23,000 m³
- ☐ 13,425 m³ GB20 crushed
- ☐ 2,600 m³ Gabion rock crushed
- ☐ 5,000 m³ DGB20 crushed
- ☐ 2,500 m³ GB40 crushed
